

LOUTH NEXT CHAPTER WOMEN'S PROJECT

*I think today's event met the objectives very well.
It really brought all the group together.
The 'contract' worked – we were honest, took risks, listened and built trust,
We achieved a lot today, for the first time we all were on the same page, it was
great to hear from everybody,
Excellent – full steam ahead now,
... we broke down barriers and reformed as a collective group
... it made the project realistic, achievable, gave back hope to the group.
...allowed space to think and speak, equal airtime for participants.
Small groups delivered insights and discussion points.
Very enjoyable, practical approaches, well done,
Very well facilitated, structured and delivered,
Loved the methodology used, especially the task/ relationship/ process method
Format was great, there should be a follow-up session to allow people to have
time to reflect and build on today,
A good variety of methods used,
Loved working in the circle, very gently guided,
Beneficial, productive, good atmosphere, created a great day for the 'parish'
Choice of methodology worked perfectly with the dynamics of the group, and has
taken us over the issues and moved the group and its issues forward,
Great use of methods to ensure full participation, very inclusive, calm and
relaxing,
Excellent*
